## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments with respect to claims 9-11 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 103***

Claims 9-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Carle, Tanaka et al, or Welch et al. Each of these patents shows a crushing operation being controlled via an operating panel and a screen. This meets the elements as positively claimed with the exception of the particular display made on the screen. However, once the use of the panel and screen are known as in the patents listed above, the particular display made becomes an obvious design choice only based on the desired controlled parameters. Therefore, it would have been obvious to modify Carle, Tanaka et al, or Welch et al by providing whatever display desired on their screens, since the display chosen would have been an obvious design choice only.

### ***Claim Rejections - 35 USC § 102***

Claims 9-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Carle, Tanaka et al, or Welch et al. Each of these patents discloses the use of an operating panel and display during a crushing operation. These are the only elements positively claimed in these claims. The remaining parts of the claims are based on the particularly programming of the display and its controller, but this does not further limit the apparatus per se.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
